Dear Mr. Jones:

Regarding your recent inquiry as to the water supply at Mineral King, I would suggest that you contact the United States Forest Service at their Porterville, California office. In general, the Forest Service controls the water supply at Mineral King.

Additional information could be acquired from the Army Corps of Engineers at the State Department of Water Resources and the United States Geological Survey. These agencies have instruments in the area and record the data each year.

Sincerely yours,

Robert B Hicks
